gruppoGabel

**Gruppo Gabel** is the Italian-made  
excellence for home textiles

# A FAMILY TRADITION

Gabel is the history of a family that has been manufacturing business since 1957 when it was established. Deeply rooted in the textile tradition of the Lake Como region, Gabel represents the Italian quality and style.

*Francesca, Michele and Massimo Moltrasio*

We are very proud of the **Gabelgroup** Hospitality project. An important business department set to satisfy any customers' requirement through its manufacturing capacity, professional

skills, and the typical Italian craftsmanship. Since its foundation our company has been providing linens and accessories of excellent quality to all living environments.

### **An Italian excellence since 1957**

Gabel is a leading textile manufacturer, excelling in the international industrial scenario thanks to its capacity to produce the entire range of home textiles.

The mission of the Group is the constant care and attention to quality, from the concept to production.

The careful selection of raw materials, cotton, linen and wool, worked and woven through state of the art equipment leads to collections that fully express Italian creativity and style.

### **All-round sustainable**

Sustainability and respect for the environment are the characteristics that define Gabelgroup. Since its foundation, Gabel dedicates itself to using renewable energy only. We are an ethical company that puts social and moral aspects on top of its rules. We are a certified green manufacturer, producing and using clean energy.

### **Innovation, quality and Italian style**

Innovation, style and quality are key aspects of our Group, allowing us to be among the main players of design and home decoration. A constant research of new ideas to dress private residences as well as hotels and yachts with Italian elegance.

# Let us brag a little...

Our companies weave, print, dye,  
finish and cut & sew its products  
in our own Italian factories.

By choosing us, you help maintain  
a sustainable and ethical manufacturing  
process, because we control each step  
of production and we care about  
our people and their work conditions.

**Gabel**  
1957

Gabel 1957 makes products for all rooms in the home: bedroom, kitchen, living-room and bathroom.

Gabel 1957 is a “made in Italy ambassador”, representing through its collection the ‘Italian living’ style.

**Somma**  
1867

The luxury and uniqueness of managing the whole manufacturing process, from the selection of raw materials, to each step of production: weaving, dyeing, printing, finishing and sewing, make us different.

Somma 1867 is the brand that combines tradition with innovation.

**Pretti\***

Since the 1950s, Pretti brand has meant high-quality refined towels and bathrobes. Knowhow, attention to quality and details are today as in the past the strength of this brand, acquired by Gabel in 2007. Pretti is constantly experimenting, through innovative styles, colors and materials, always paying attention to the smallest detail.

**Vallesusa**  
casa

Vallesusa is a historic brand in the kitchen and table linen field, known since its foundation for the quality of its products and the large assortment of its collections. These strong characteristics, maintained and developed after the acquisition by Gabel in 1976, have expanded the brand. Today in addition to the wide, unique kitchen and table linen collection, also proposes innovative collections for the bedroom and the living room targeted to a modern consumer.

Gabelgroup obtained two important certifications: **STeP by OEKO-TEX** and **GOTS**.

**STeP by OEKO-TEX** (Sustainable Textile Production) is a prestigious environmental certification for textile plants that show in a credible and transparent way their path towards a sustainable production.

**GOTS** (Global Organic Textile Standards) is the most important international certification for textile products made of fibres organically cultivated, transformed and finished. It guarantees that the whole process is really sustainable and respects precise environmental and social criteria.

# la suite

Our attention to detail generates unique products.

The utmost care for the sewing process is transformed into sartorial masterpieces. In order to satisfy our most refined clients, we created La Suite, a division of Somma 1867.

La Suite expresses the concept of luxury by whispering the elegance and excellence of Made in Italy rooted in our history.

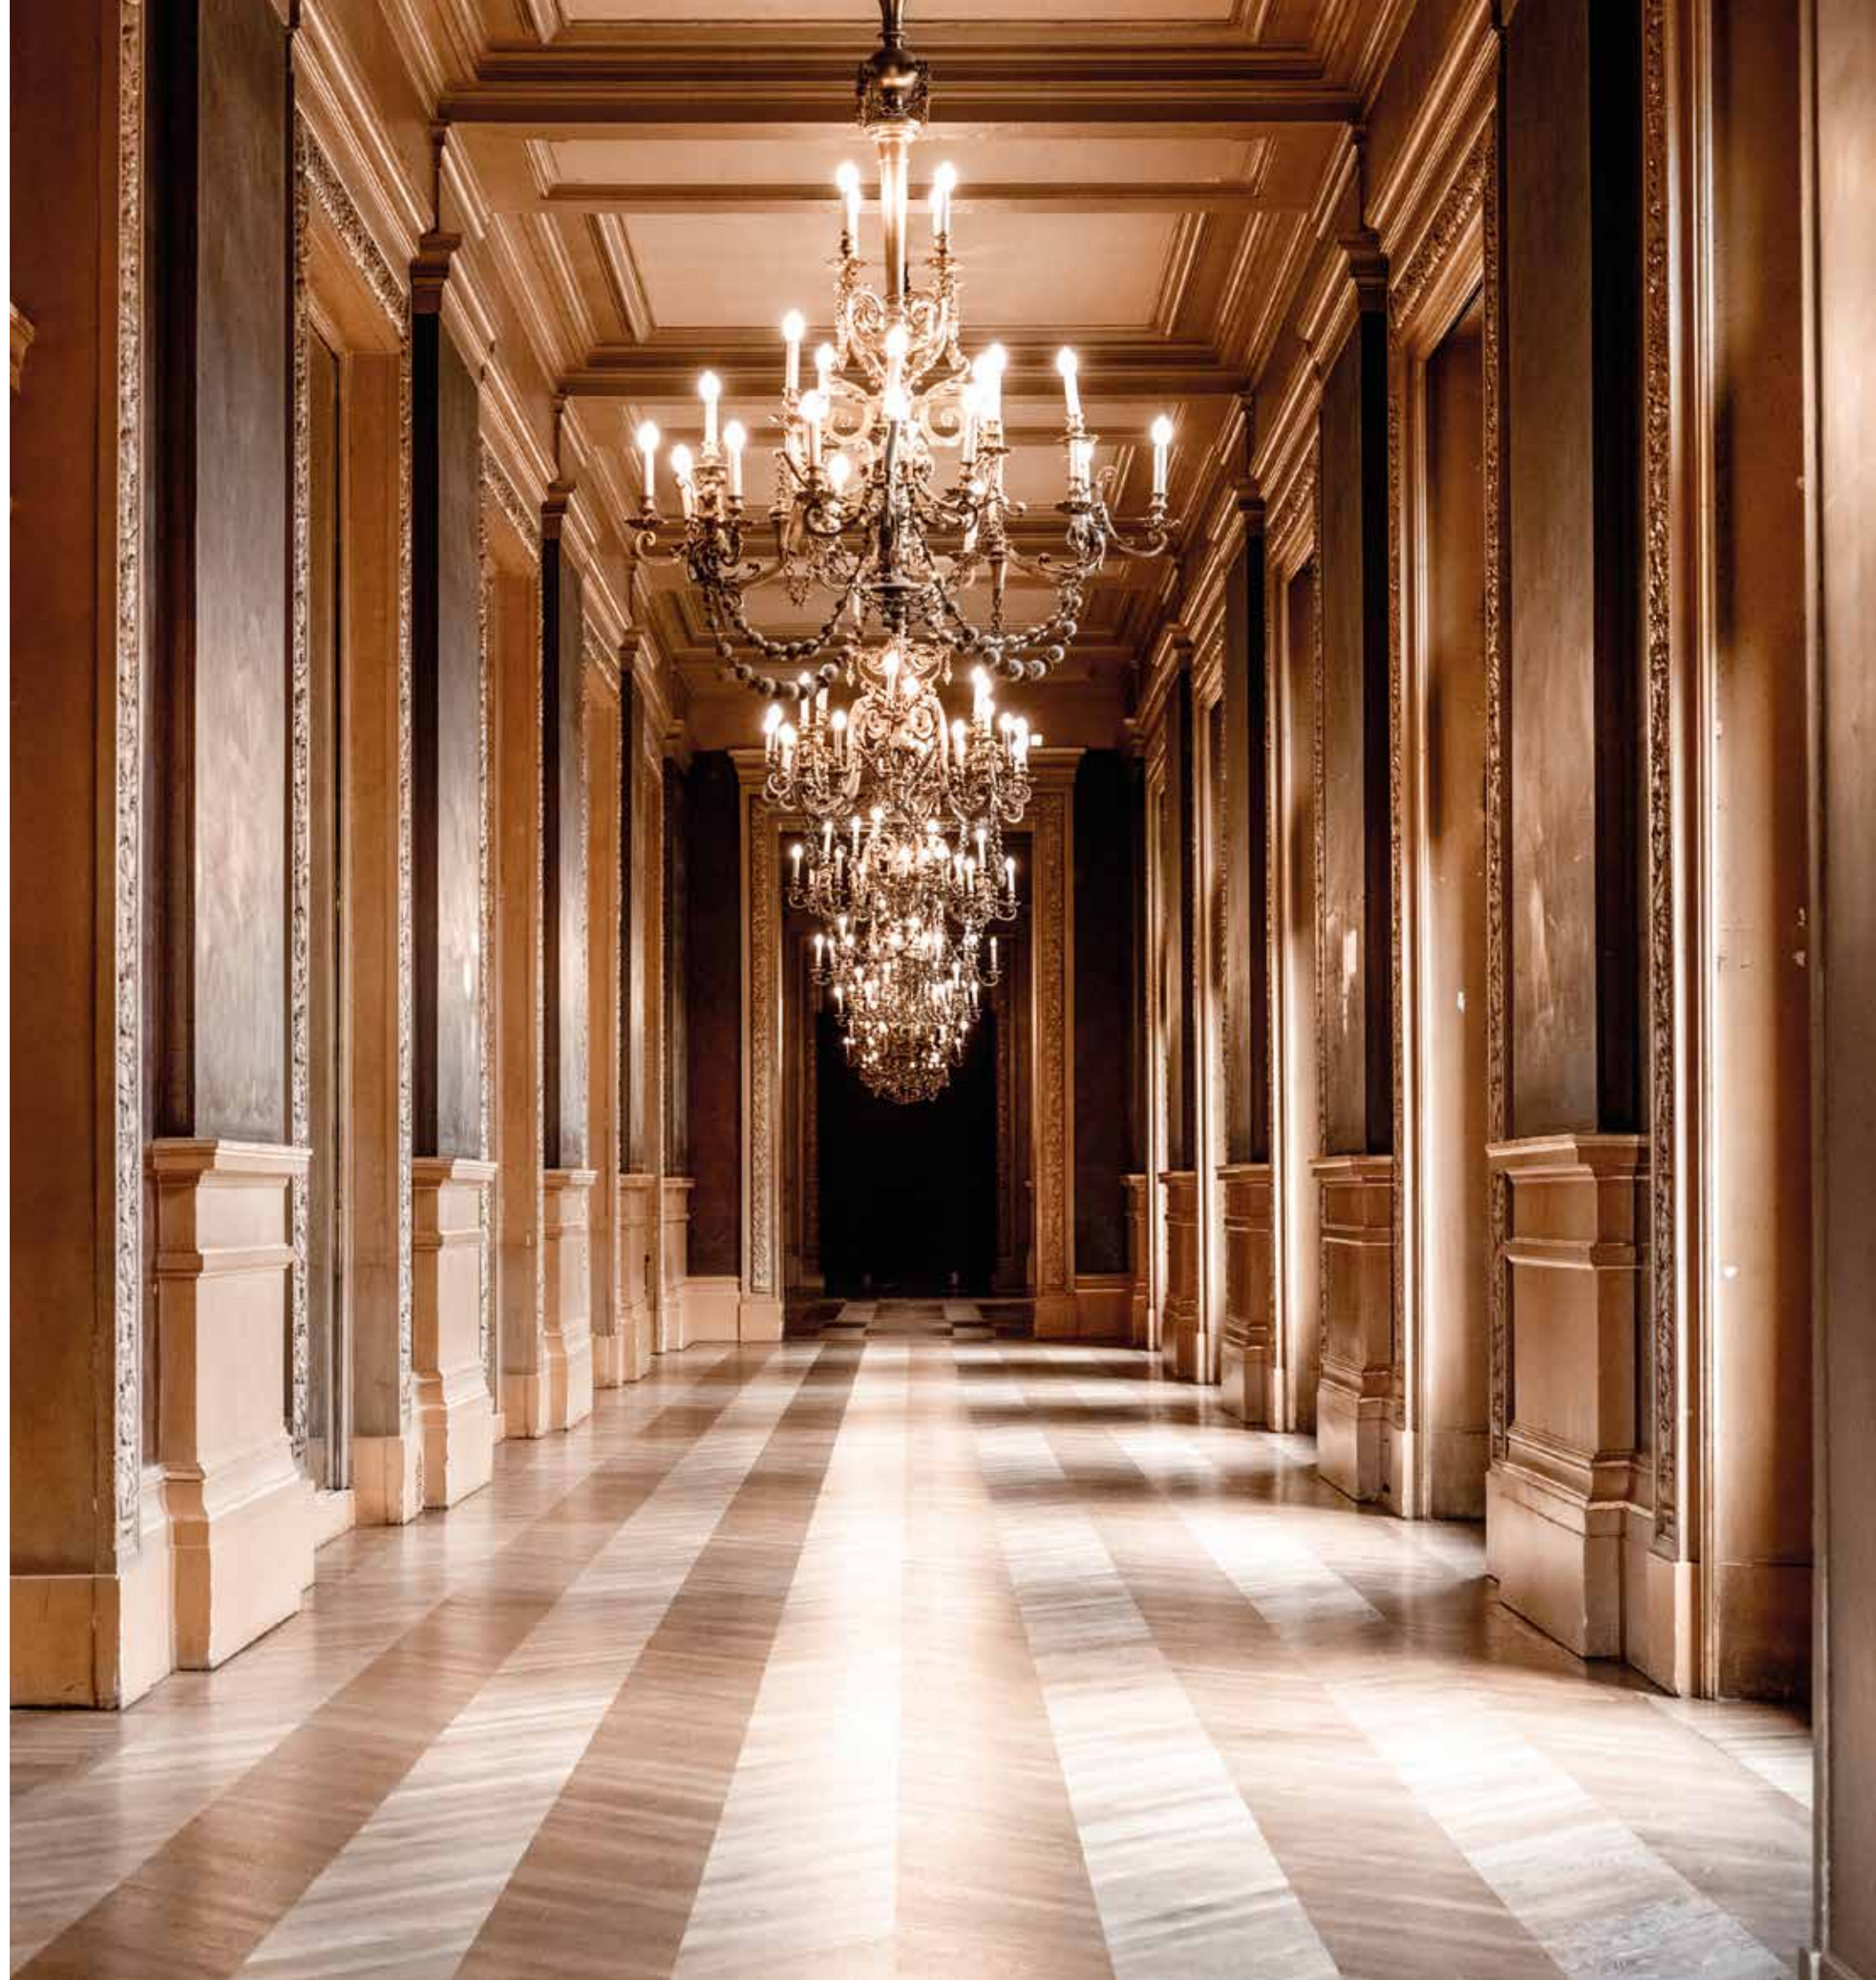

Sophisticated elegance and a deep search for exclusivity: the bespoke concept of La Suite knows no boundaries.

La Suite made-to-measure concept, offers the customization of each decorative element.

From the choice of fabric, color, finishing to the chosen embroidery; from the finest wools worked in exclusive jacquard motifs to the finest cotton sateen and percale.

Each product represents a unique creation.

La Suite offers its customers a wide range of high-quality products to furnish every environment in private mansions, hotels, yachts and jets.

Zipper closure.  
Maximum breathability and quality.  
Active hygiene thanks to the Aegis treatment, which prevents in a natural proliferation of bacteria and mold, helping to prevent allergies from bacteria and dust mites.

- Description:**
- Size: 50x80 cm
  - Code: 00 13574 050080 00

JACQUARD - cod. 13878

**Information:**

Pure cotton hydrophilic terrycloth pillow cover.  
Zipper closure.  
Medium-low curl promotes maximum breathability.  
Active hygiene thanks to Aegis treatment that naturally prevents the growth of bacteria and mold, helping to prevent allergies from bacteria and dust mites.

- Description:**
- Weight: 260 g/sqm
  - Dimensions: 50x80 cm
  - Code: 00 13878 050080 00

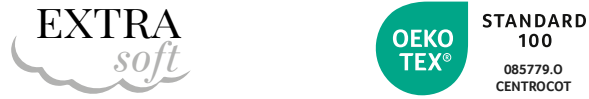

Thin padded microfiber mattress pad, with variable height, to be placed between the mattress and mattress cover to accentuate and personalize sleep comfort to the maximum.

A modern complement that is able to bring well-being to the person and the structure of the mattress on which one sleeps. It features 4 practical corner elastics to secure the item firmly under the mattress, ensuring its proper extension.

- Lightweight and practical to use, it is useful for varying the stiffness of one's mattress and for its protection:
- Protects the mattress and preserves its characteristics for as long as possible;
  - Corrects some structural defects of the mattress making it more comfortable;
  - Excellent cost-saving solution for not replacing a slightly damaged or underperforming mattress.

Soft, breathable and durable. The topper, due to its technical specificities, greatly helps personalization and sleeping comfort. Due to its volume and softness, it greatly improves the quality of sleep. Gabel offers two different toppers that by technical and structural features meet different needs.

GOLD - cod. 23145

For those who demand the best and want only natural products.  
The new collection of natural comforters, renewed and improved in qualities:

- offers PLEASURE AND COMFORT for healthy rest. Soft, lightweight, highly breathable and hypoallergenic, all comforters are made from feathers carefully selected, dedusted, washed and sterilized according to current Italian legal regulations;
- ensures the RIGHT NATURAL TEPOR throughout the night. Contrary to popular belief, down and feathers do not produce heat but are an excellent insulator that allows you to preserve the natural heat emitted by the body during sleep, insulating it from the outside;
- it is an ECOLOGICAL PURCHASE that respects the environment. The materials used, which are completely natural (cotton and down), do not pollute and do not burden the environment. Down-whose production requires little energy compared to synthetic fillings-thanks to its high insulation saves energy for heating the bedroom at night, reducing gas and smoke emissions that cause the greenhouse effect; - is an ECO-SUSTAINABLE CHOICE because they are 100% recyclable and biodegradable. Cotton, down and feathers are natural elements: when no longer usable, they can be recycled, or turned-in a few months-into natural fertilizer through normal decomposition.Synthetic fillings, on the other hand, take up to 400 years to decompose, burdening the environment surrounding future generations;
- RESPECTS NATURE AND ANIMALS. We purchase down jackets only from manufacturers recognized by the IDFB, an international body that for years has been committed to the protection and animals.

PRODUCE IN ITALY

Comfortable tailoring innovation

Ideal for those who love quality and practicality of interiors with a green soul!

Gabel's new interior is softer and softer to the touch due to its technical specificities.  
The new filling made of 100% recycled and certified polyester microspheres makes the product more voluminous and enveloping and ensures high breathability to climate to body temperature.

Another special feature is the 100% cotton percale lining, which embellishes the interior compared to the microfiber items already in the collection, and the double tucking that makes the product unique in the 100% made in Italy offering.

PRODUCE IN ITALY
